Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can lose over his counter ten gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade and advertisements should be paid for, no matter in what part of the paper they appear.

GREAT SALE

MEN'S SUITS!

We are going to do the biggest Clothing business this season of any like period in the history of our house. Experience has taught us that the best, most carefully ruled to wear garments retailed at the lowest possible prices offer the only means to accomplish this end. Our dealings are confined exclusively to America's best wholesale tailors. Under no circumstances do we give store space to cheap trash. The very special values we offer this season are a good demonstration of our business policy. Each and every garment will be found strictly up to date. Absolutely the latest style in the market.

OUR PRICES ALWAYS THE LOWEST!

At \$5 we sell well made good wearing Suits, strictly all wool.

At \$7.50 stylish up-to-date Suits made from choice fabrics in all the latest effects in colorings.

At \$10 and \$12 we sell Suits that are designed to meet the requirements of the most fastidious dressers.

Our \$15 Suits are the embodiment of style, elegance and refinement in wearing apparel. They equal in every particular the product of the average merchant tailor at \$35 or \$40.

Our Furnishing Goods Department is replete with the latest novelties in Hats, Shirts, Collars, Neckwear, etc.

SHOES!

Ah, well, look in our windows. You will see more like them in the state. We buy and sell none but the best that the manufacturers of the finest footwear in the country make.

ONE PRICE ONLY.

HECHINGER & CO.
LEADERS IN FINE CLOTHING AND SHOES.

THE BEE HIVE.

Wash Goods at Half.

We have an unprecedented stock of Worthy Wash Goods that are marked at one half their usual prices; and their washableness has been severely tested and not found wanting. At 15c you'll find a great line of French Gingham of regular 30c value. Probably two hundred pieces of Domestic Gingham. All different designs, that you are paying 15c a yard for, are on sale here at 8c. Those Etoile Organicas at 50c are selling like hot cakes; and there is a piece there in place of one of Batiste, Lappetta, French and Egyptian Tissues, Cheviots, High-grade Organics, and everything that goes to make up a wonderful wash goods stock. It will pay you to investigate.

Fancy Goods Fads.

If you're looking for anything new you'll find it here. We have a great stock of Fancy Jeweled Belts at 30c. Leather Belts from 10c to 50c; and the latest "fad" in Belt Buckles and Slides at 30c. We have also the Velvet Belting to fit the Slides at 30c, and 50c a yard. All kinds and colors of faddy Dress Trimmings in Crinkled Chiffon at 40c. up.

Appreciative Carpet Selling.

Our Carpet sales have never been so large. It proves you appreciate our efforts to combine a great stock of choicest patterns and exceptional values at low prices. Our 50c Tapestry Brussels is a great leader. A recent arrival is a large lot of Smyrna Rugs, 20x30, with or without fringe, at \$1.39 and \$1.59. They're worth a great deal more.

Owing to the wretchedly bad weather

OUR SAILORS NEVER CHANGE.

They build new-fangled battleships
That sweep the boundless seas,
Torpedo boats and other craft
That lead to victory;

They make new guns of mighty bulk
And most astounding range;
New cannon kill the foe, but
Our sailors never change.

They are the same as those who fought
With Jones upon the wave,
The same as those who fought
Heroically and brave;

They fight today just like the tars
Who stood at Perry's side,
And like the Yankee boys who fought
When gallant Lawrence died.

They man the guns as they were manned
One time in Mobile Bay,
They fight as when our Window steered
To victory his way;

The sailors of the present time
Are like the men who stood
And fought with noble Hull behind
Their floating walls of wood.

Ah! they may build new battleships
And change the art of war;
But you will find upon their decks
The same old Yankee tar;

He strips for strife just like the men
Who fought in vessels strange;
New guns, new shells, new cruisers, but
Our sailors never change.

REAL NEWS!

For one day, at least, the "fake" factory
did not work a gold brick or a lot
of green goods on the public.

The dream of the humorist is coming
to pass. Torpedo boats were built as
destroyers, and then came torpedo-boat-
destroyers. Now the Government has
resolved to build a fleet of destroyers-of-
torpedo-boat-destroyers. They are to be
of about 400 tons displacement, and will
have a speed of twenty-eight knots an
hour.

A dispatch was received by THE
LEDGER yesterday afternoon saying
that in London there was a "per-
sistent rumor"—whatever that may
be—that Spain's Cape Verde fleet had
gone to Cadiz and united with the fleet
there, and that the combined fleets
would sail for America Sunday. It was
given to the public for what it was
worth.

THOMAS A. KNITE, C. G.

A dispatch from Rome reports Guido
Bacelli, the celebrated statesman and the
coming premier, as saying—

"America should keep the Philippines;
first, because from the standpoint of
international policy. The United States is the
only power which can now have them,
as they should not be returned to Spain,
which, being without a fleet and finance,
the islands would become redoubtable
to a bone of contention for the European
powers, thereby precipitating the far
East conflict. If ceded to England, it
would be considered by Russia and Ger-
many as a casus belli as destroying the
equilibrium in the far East. The powers,
therefore, in their heart of hearts hope
that America will keep the Philip-
pines, as she is the only power capable
of guaranteeing their neutrality and is
not suspected of designs of territorial ag-
grandizement."

In London Sir Charles Dilke, when
asked whether any question of Interna-
tional Law or practice affected the United
States' right to retain the Philippines,
said:

"None whatever. The United States
will hold the Philippines by right of con-
quest. No power or powers will have
the slightest title to interfere."
"But may not some power, Germany or
France, for instance, bring pressure to
bear on the United States to surrender them?"

"That idea of continental pressure I
regard as all moonshine. No power
would attempt pressure unless we were
in the same boat with them, which we
never will be. Without English Naval
support no power will venture upon any
action in the matter."

THE LEDGER, with the heartiest
Amen! indorses every word that The
Courier-Journal has to say in regard to
disreputable Journalism, to wit:

THE BUSINESS OF FAKING.

DAVID admitted that he once said
that "all men are liars," but afterward
concluded he was too hasty. All men
make mistakes, but he who makes a
mistake is not a liar, if he has appar-
ently good grounds for his assertion
and is not guilty of negligence in try-
ing to ascertain the truth.

The liar is he who intentionally de-
ceives, or who makes false assertions
recklessly without knowing or caring
whether they are true or not. It is no
excuse that a man believes a thing to
be true if he asserts it without the
slightest evidence to support it. If he
repeats what he knows to be a mere
rumor, he is obliged to say that it is
such. If a story is of an injurious
nature, it is better not to repeat it at
all unless there is evidence to support
it.

In time of war it is hard to avoid
mistakes. The regular sources of in-
formation are closed to some extent,
often to a great extent. Errors of ob-
servation, inaccuracies of reports, are
tempted by the obstacles which war
necessarily throws in the way of ob-
servation. The temptations to over-
state or to falsify which affect the
agents employed for the collection of
information increase with the difficulty
of detecting them. All these things
ought to be understood by the public,
and in a reasonable degree they are so.
The people readily pardon mistakes that
cannot well be avoided.

All this, however, is quite apart from
the efforts that are put forth for the
express purpose of deceiving the public
systematically and continually. This is
the business, or at least the chief busi-
ness, of what are called the "yellow
journals." They are distinguished from
the "white" papers by the fact that
"whereas the public is a fool," "What
is the use," reasons the proprietor of a
fake newspaper, "of expending large
sums of money to obtain accurate in-
telligence, when the public will be far
better satisfied with a lie? Go to. I
will hire expert liars to write the news
in my office and date it in Europe, Asia,
Africa or the islands of the sea, as the
case may be, and I will sell it to the
public in the form of extra or other-
wise, thereby obtaining money and
pillage from my dupes. Moreover, I
will sell this false intelligence to others,
who will also sell it to their dupes for
lawful money. Should we be detected in
this game we will raise our voices
with one accord and say that our stories
have been fully confirmed, whereupon
the ignorant public will be greatly con-
fused in mind and keep on buying our
papers."

This is the basis on which the busi-
ness is done. Some of our papers have
the usual facilities for getting accurate
news, but they are not satisfied with
these. The actual news is not always
sensational, and they want a sensation
for every day; sometimes
several sensations a day. If nothing
sensational occurs the liars on the staff
get orders to invent it. It is head-
lined in letters six inches to a foot long,
and is hurried out upon the street, and
sent by wire to subsidiary liars in other
parts of the country.

Fractions of this sort by a few well-
known papers in the East have caused
them to be excluded from most of the
principal libraries and reading-rooms of
the country. Still, though the fact is
perfectly well known to all newspaper
men, there are those who have in former
days commented on it with severity
that have availed themselves of the
service furnished by fake journals, and
denied their readers from day to day
with the result of the infuriated genius
of the employees of yellow journals.
The fact that the papers that em-
ploy

THE BUYERS' GUIDE THE TRUTH

Itself is not believed from one who often has deceived!

Remember, we have never deceived you.
We have never offered you a 75c. chair for
40c. and then sold you a \$10 bedroom suite
for \$19. Remember that we have no baits, no
leaders, no catches!

The good people of Mason county realize by experience that we mean every word that our
signature appears to. Beware of the advertisement in which appears the
phrase "We mean this." Let us look into the future, say in 1920. After having been in your midst twenty-two years, supposing that during all this time we had
deceived you by means of baits, catches and leaders into paying twice the real value for your goods—supposing that after twenty-two years of deceit we were to
come out in an advertisement saying that "we mean this" would you believe it? Would you trust yourselves to our mercy? Would you trust one who had often
deceived? This is merely a supposition, you understand, for we have no intention of departing from our present method of business. We venture the prediction
that in 1920, Providence permitting, we will stand very close to the hearts of the people of Mason county. By that time John I. Winter will have clearly demon-
strated the fact that his word is his bond. Another peculiarity of The Price Fighter is that he never asks what the other fellow's price is—he don't care.

The Price Fighter Makes His Own Prices

No, sir; The Price Fighter never makes but one bite at it. He gives you his best price at first, and that price is invariably a record breaker. Surely it should in-
spire confidence to realize that the price asked you is the taking price—to realize that the price first asked you is the lowest price in the world for the same article.
The question with us is, "How cheap can we sell this article?" With others the question is, "How much can we get for this?" What is the greatest price that the
customer will pay for this chair? It is your future business that we figure for.

WE MAKE THE PRICE ON—

Furniture and Farm Implements!

Our Farm Wagons are the talk of the surrounding country. They are
peppery. They have springs just like a C. and O. freight car. These springs are
guaranteed; they prolong the life of a wagon five years; they increase the carry-
ing capacity of a wagon 30 per cent.; they equalize all sudden jars and jolts, re-
move all strains from your wagon; they are found only on the Florence Wagon
that is sold and warranted by John I. Winter. Get all you can for your money.
Say, I can save you \$10 on a farm wagon; try me! I have a peculiar Disc Har-
row. It's different from any other disc harrow. Ought to see it. Costs nothing
to look at it. Farmers all say that it's the finest thing in the land. I can save
you from \$7 to \$10 on a disc harrow. I would like for you to see our Corn Plant-
ers, both one and two-horse. See our Riding and Walking Plows and Cultivators.

Yours for a Square Deal, JOHN I. WINTER,

NAVAL SALUTES.

Number of Guns to be Fired on Various
State Occasions.
Everybody will be interested in this
in these days of naval reviews.

Upon entering a port, a warship sal-
utes with twenty-one guns the flag of
the Nation she is visiting, and then the
flags of any foreign Admirals who may be
there. Every salute is answered, gun
for gun.

The following table shows the proper
salute for the various subjects named:
Nations, rulers of Nations, Ambassadors and
members of royal families. 21
Vice-President of the United States. 19
Cabinet Ministers, Admirals, Governors of
States, Justices of the Supreme Court,
Congressional Committees. 17
United States or Foreign Ministers. 15
Rear Admirals. 13
Commodore and Charge d'Affaires. 11
Consul General. 9
Consul. 7
Vice-Consul. 5
Army officers are entitled to the same salutes
as the corresponding grades in the
Navy, a Brigadier General, for in-
stance, who ranks with a Commodore,
getting eleven guns.

Salutes are never fired less than 8 a. m. or
after sunset. A vessel arriving during
the non-saluting hours must wait until
the proper time before she can blaze
away. Nor are salutes fired when wash-
ing dishes, awning or other canvas are triced
up or dry.

REVOLUTION IN ITALY.

The Outbreak in Milan Seems to Have Been
Fully Organized—Many Italians in
Switzerland Start for Italy.

BERNE, Switzerland, May 11.—The
news of the uprising in Milan has
greatly excited the Italian workmen
in Switzerland.
At Lanzanne, Tuesday morning, 1,000
Italian workmen paraded the streets,
carrying a red flag draped with crepe.
As the procession passed the main
streets the men sang the "Marseil-
laise" and cheered for the revolution.
The outbreak at Milan appears to
have been fully organized. The lead-
ers here exhibited a telegram an-
nouncing: "The revolution is trium-
phant in Turin. The city has been
burned."
The men who took part in the demon-
stration appear to have plenty of
arms.

Many Italians have started to the
north of Italy in response to a cir-
culation of the words: To the front-
ier. Let us start for Italy."

MAJ. GEN. LEE.

The Former Consul General Will Be Mil-
itary Governor of Cuba After Havana
is Captured by the Americans.

NEW YORK, May 11.—A special to the
Journal and Advertiser from Washing-
ton says: Maj. Gen. Fitzhugh Lee will
be the first military governor of Cuba.
For the next two weeks he will act as
the official adviser of Secretary Alger.
He will have a private office and de-
sks near the secretary's office, and will
either remain here or visit the various
military points. When Havana is
taken Gen. Lee will be sent to Cuba,
and, with headquarters at Havana,
will assume the temporary dictatorial
ship of the island and a republican
and stable form of government is es-
tablished by the Cubans.

Sampson's War Ships.

WASHINGTON, May 11.—No one knows
exactly what ships are in the Sampson
at Porto Rico, because this is one of
the closest guarded secrets of the navy.
Apartment of the Secretary of the Navy,
however is that his fleet is composed of
the following vessels: The Iowa, the
Indiana, the Puritan, the Amphitrite,
the Montgomery, the Marblehead, the
Detroit, the Mayflower, and the New
York, the flag ship.

Chartering Ships.

WASHINGTON, May 11.—Assistant
Secretary Mellick Jones Tuesday char-
tered about 80 ships with capacity of
100,000 tons for the purpose of trans-
porting troops to Cuba and the Philip-
pines.

Illinois Troops Sent to New Orleans.

SPRINGFIELD, Ill., May 11.—Gov. Tan-
ner received orders from Washington
to send two regiments of infantry and
light batteries to New Orleans as quickly
possible. Both last Tuesday
night.

SPAIN'S FEET ON CUBA

The Cape Verde Fleet Reported to Have Returned to Cadiz, Spain.

SAFETY OF THE OREGON NOW ASSURED.

The Way for Military Operations of Uncle Sam in Cuba is Now Clear of All Interruption.

There is a Possibility That Spain Will Send the Vessels to the Philippines for the Purpose of Attacking Adm. Dewey at Manila Bay.

WASHINGTON, May 11.—It is hard to tell whether the naval officials were relieved or disappointed by the news that came late Tuesday afternoon to both the navy and state departments to the effect that the Spanish flying squadron had arrived at Cadiz, Spain. The safety of the Oregon from attack is now completely assured and the way is clear for military operations in Cuba without running the risk of having the occupying army's line of communication cut off. On the other hand it is believed that an enduring peace can be secured until the Spanish navy has been destroyed and it now appears that to this our sailors must make up their minds to go after the Spaniards, a task very much more difficult than that of meeting them near our own shores. It is suggested by some of the members of the war board that there was just a possibility that the Spanish squadron might make a quick passage into the Pacific through the Suez canal and attack Dewey at Manila. It is said that contrary to the common understanding the Suez canal is open to the war ships of belligerent powers, so that if the Spanish choose to take this course they would have a long start of any pursuing fleet from our side of the Atlantic. It is scarcely believed however that the Spaniards are willing to take the great risk of exposing to our attack their own home ports by the withdrawal of so considerable a proportion of their naval strength as would be required to overmatch Dewey. Nothing was heard from Sampson Tuesday, but there is a confident expectation that interesting news will be coming from his squadron within the next 24 hours. Whether this means an attack on Porto Rico or not can not be learned.

One effect of the retreat of the Spanish fleet has been to hasten even more the preparations already under way for the dispatching of military expeditions to Cuba. It also has caused the navy to speed up the concentration plans. Time is now believed to be the greater factor. There is no longer opportunity to indulge in extensive drilling and practice maneuvering. The regular army troops do not need these and are being thrown into the line. Many of the regiments of the national guard which are entering the volunteer service are felt to be inefficiently trained from a military point of view to follow the regulars immediately and the department indicated its purpose Tuesday in sending to the front these volunteer troops directly to the Gulf coast for shipment, instead of sending them to Chickamauga. This disposition was shown by the change in the new orders to the troops, although there yet may be a return to the original programme of concentration if the plans show signs of weakness as they develop. The quarter-master general has already gotten under charter 27 motorships to carry the transport of troops, and regular speaking these should carry about 60,000 men. Others are being procured as rapidly as possible. The plan of the war department is to have these vessels assemble at the different Gulf ports, such as Mobile, New Orleans and Galveston to take on troops which will be sent there. The navy department is also preparing to send convoys for these transports, which would be absolutely helpless against a Spanish attack. At this point there are signs of friction between the army and the navy, for the transports will be obliged to await Adm. Sampson's return in order to secure proper convoy, and secondly the navy objects very decidedly to undertaking the task of conveying a number of transports. It insists that the safety of the convoy of the troops of all of the transports should be gathered in one fleet to start from Tampa, and the navy is likely to prevail in this.

Now that Maj. Gen. Sewall has been assigned to command the concentration camp at Falls Church, preparations are being rushed to put the grounds there at the disposal of the army for the reception of the volunteers.

LONDON, May 11.—There is no confirmation of the report that the Spanish fleet from the Cape Verde Islands has returned to Cadiz, but it is generally regarded as the most likely move to be made and as an indication that Spain has decided to let her West Indian possessions go.

The question is generally asked: "What possible use can Spain for continuing a hopeless struggle, as it is considered next to impossible that she has any alternative but that of the retreat of the squadron hides some strategic design."

Ex-Senator Craig Dead.
WASHINGTON, May 11.—Senator Aaron H. Craig, of New Hampshire, died Tuesday of congestion of the lungs. The remains will be removed to Lebanon, N. H., where the deceased was one of the organizers of the republican party.

GOING TO CUBA.

The Regulars and Volunteers Will Be Mobilized on the Gulf Coast at Once.

STIRRING TIMES AT CHICKAMAUGA.

Moving the Big Command From There Will Be a Big Undertaking for the Various Railroads.

The Majority of the Officers Say It Means They Will Land on Cuban Soil as Soon as Possible—Gen. Miles Will Be in Command.

CHATTANOOGA, Tenn., May 11.—At Chickamauga park Tuesday, officers and men of the regular army regiments were rushing as they have not been called upon to do since the days

of the civil war. The order for the entire army to pack up and go to the front at once was announced at nine o'clock, and since then things have been moving at a tremendous pace. The railroad men have been running all available cars to the park, and as rapidly as they arrive they are loaded with the camp equipment, horses, supplies, etc.

The work of moving the big command during the next few days as they are expected to start is an immense job for the railroads. They had received no intimation of the sudden order and had made no adequate preparations. The two lines to Tampa, the

amount of equipment in the park, and the whole business can not be moved within a few hours." Col. Sheridan refused to give any opinion about what the order meant.

The majority of the officers however do not hesitate in saying that it means they will land in Cuba as they can get there.

Besides the infantry division, the Tenth and Sixteenth cavalry go to Tampa. The Second cavalry will go to Mobile and the First and Tenth cavalry to New Orleans. All the artillery was sent out several days ago.

WASHINGTON, May 11.—Preparations for the invasion of Cuba by the United States army are being pushed with all rapidity possible. It was announced Tuesday morning at the war department that at least 50,000 troops would be landed in Cuba by Saturday morning. The other 30,000 will follow as soon as they can be put upon transports.

Gen. Miles will take personal charge of the troops, and it was his intention to leave for Tampa Tuesday night on the 10:40 train over the Southern railroad. But Tuesday morning some important business developed in regard to the expedition which prevented him.

The ladies of Topoka presented a stand of silk colors to each of the three Kansas regiments now going to the front.

The crew of a German cruiser at Cadiz ostensibly fraternized Tuesday in the streets with the crews of a Spanish battle ship.

It is reported that the Spanish priests and sisters of Cadiz repaid the Americans for their humanity by trying to lead them into a mined channel.

In Rome the police are reported to have seized documents showing that the recent rioting in the result of a plan of revolution, prematurely commenced.

A special dispatch from Beaufort, N. C., says: "Lieut. Allen of the schooner Albatross and others of the ocean fleet of fishermen off this place, report hearing heavy cannonading off Cape Lookout, N. C., at 10 o'clock Tuesday, counting 47 distinct shots."

The steamship Conemaugh has arrived at San Francisco from New York 99 days out, she brings a general cargo. An inspection of the vessel will be made as soon as the docks, and the First Missouri volunteers, who will be added to the transport flotilla.

Battery A and the Second infantry, Missouri national guard, now at Jefferson Barracks, are being transferred to the United States service. The Second regiment will be known as the First Missouri volunteers. They will be ready to start south Wednesday or Thursday.

Adm. Dewey's victory was celebrated in Toronto, Kan., Tuesday, with an elaborate demonstration. A great parade was arranged in which Grand Army and other volunteers and semi-military organizations took a prominent part. Several thousand school children were in line.

The Chinese authorities have requested that the United States ship Monocacy be sent from Shanghai to the mouth of the Yangtze river, pending the neutral attitude of China, causes some apprehension among naval officers in Washington, as the Monocacy is an old vessel, and is not well adapted for service with safety on the open sea.

The Norwegian steamer Drabsberg, which arrived at Key West Tuesday morning under the convoy of the Margrove, is still a prize of war, pending the decision of the United States on the question. The affair bears many features of resemblance to that of the French steamer La Fayette, but, like that case, it will be settled without any international complications.
